

IOSH managing safely refresher course

At Marsh Commercial we know that the best way to achieve health and safety training success is to get people fully involved, having fun and learning by doing.

Working with the Institute of Occupational Safety and Health (IOSH) we are able to offer the managing safely refresher course.

Who is the managing safely refresher for?

If you already hold a managing safely certificate, we recommend that a refresher is done every three years, keeping you up to date with your health and safety responsibilities.

What are the benefits to your business?

- Peace of mind, knowing that your staff have had refresher training and are up to date with their health and safety knowledge.
- The flexibility that allows us to deliver the programme to suit your business and in just one day.
- Efficient and effective learning of health, safety and environmental factors. The course materials have been piloted to make sure they work in practice.

What is covered?

- Reflection – revisit the key reasons for managing safely and recap some of the key terms.
- Leadership – why leadership is important and how to create a positive safety culture.
- The plan – relook at a health and safety plan and what it needs to include.
- Doing – actually undertake a risk assessment exercise and how best to communicate the findings.
- Checking – take a look at what can be measured.
- Act – look at how to review performance.

What results can you expect?

- Greater productivity, from fewer hours lost due to sickness and accidents.
- Improved company wide safety awareness culture and appreciation of safety measures.
- Active staff involvement to improve the workplace.
