Bloodstock

Our bloodstock solution, underwritten in London, allows us to arrange insurance cover for many aspects of the thoroughbred industry, from foals to racehorses, through to breeding stock.

We can provide worldwide cover against all risks of mortality (death or destruction on humane grounds, by accident, illness, injury or disease) and theft. The following additional covers are also available:

- **Transit insurance** – all risks of mortality cover can be extended to include international transport to and from other approved countries.
- **Prospective foal insurance** – provides protection for a foal in utero and cover is available until 30 days after birth.
- **Foal insurance** – cover available for foals from 24 hours of age.
- **Stallion permanent disability** – in the event that a proven stallion or horse with an intended use as a stallion becomes totally and permanently impotent, infertile or incapable of serving mares as a result of an accident, illness or disease.

Riding and competition horses

We can provide all risks of mortality (death or destruction on humane grounds, by accident, injury, illness or disease) and theft cover for most types of horses and ponies used for:

- Dressage.
- Show jumping.
- Eventing.
- Showing.
